

NORTHERN TRIBUNE.

SATURDAY, JANUARY 7, 1882.

Circuit court meets two weeks from next Tuesday, the 24th day of January. Judge Ramsdell will preside.

The Cheboygan Lumber company has a boom strung across the river, from the upper end of Baker's dock to near where the elevator stands, for the purpose of catching logs which are to be hauled to and put in the river from the banks above.

The American express company have established an office in our village. I. S. Cooper, of Kenburg & Cooper, has been appointed agent and the office is at the Central drug store. The general verdict is that Mr. Cooper is the right man in the right place.

An oyster supper and social gathering will be given at the Town Hall next Thursday evening, by the ladies of the Catholic church. A handsome card receiver will be presented to the lady receiving the highest number of votes as the most popular lady of Cheboygan.

The directors of the Cheboygan County Pioneer society are talking of arranging for an excursion to Bay City, to take the place of their annual party and dance, providing they can get satisfactory rates from the railroad company. We have no doubt a large party could be secured to take it in if the fare was made reasonable.

Harbor Springs had the most acceptable New Years gift received on the continent. It was a new railroad; a full grown one; too large for even a Cheboygan girl's stocking.—Emmet County Independent.—What do you know about Cheboygan girl's stockings? They are not in the habit of exhibiting them to half-breeds.

Post & VanArsdale have about decided to erect a new building next season for their hardware store. Should they do so the building will be of brick, 36 by 110 feet, and two stories high. They need it to accommodate their business and we have no doubt, if they do build, that they will have one of the finest stores in Northern Michigan.

The work of repairing the bridge at John F. McDonald's is progressing. Yesterday they commenced putting up the timbers of the main truss. The span over the main channel is to be raised two feet higher than the old bridge, and the approaches raised to correspond, so that the stamers can pass under readily without having to lower their smoke stacks.

Quite a large party took advantage of the first sleighing of the season to pay Mr. and Mrs. W. B. Ellis a visit at their home on Mullet Lake. The fact that they visited Mr. and Mrs. Ellis is a sufficient guarantee that a good time was enjoyed. They know how to entertain such parties. The "boys" were on hand early this morning to attend to business for the day.

Since the advent of the railroad Mackinac City has been having quite a "boom" in the way of building and the promise for the future is very encouraging. Next season, from present indications, will see quite a town built up on this side of the straits with all kinds of business represented. We hear of several different stores that it is expected will be started at that point early in the spring. Let her "boom."

The Chippewa County News says: "A. Mathews, of Marquette, it is reported, has located with Porterfield scrip land covered by the new canal and extending south to Portage street. Byron B. Adair in 1859, we are informed, obtained, under the pre-emption act, a certificate for a patent of this and other land, and William P. Spaulding, of the "Soo," is his grantee, and has already given notice to adverse claimants, of his rights."

Warren Waterman came in from camp near Vanderbilt, this week and reports their lumbering operations progressing finely, their force banking about 100,000 feet per day. He reports more snow there than here. They have expended a great deal of time and labor on their logging road and have it in excellent condition. They will have 1,000,000 feet banked by the middle of next week, and expect to put in about 4,000,000 feet this winter.

A comparison of the weather of last month with that of December, 1880 shows a marked difference, especially at the close of the month. The last week of the month in 1880 being extremely cold. On the 28th the mercury never went higher than 59 below zero, being 6 below at sunrise, 5 at noon and 9 at sunset. The 29th at sunrise it was 10° below, at noon, just at 0 and sunset 7° above. On the 30th it stood 13° below at sunrise, 0 at noon, and 1 above at sunset. Up to the last of December 1880 there had fallen five and a half feet of snow, and lumbermen were complaining of having too much of the beautiful.

Chas. H. Eby, at the City Bakery has just finished one of the finest pieces of work in the cake line that was ever made in Cheboygan. It is a wedding cake for the occasion of Patrick Moloney's marriage, which is to take place next Monday.

Yesterday morning a large owl was sporting around the lower part of the village in the neighborhood of the docks, flying from chimney to chimney. At last it lit on the chimney of the residence of Charles Brannack, Jr., and his son Frank shot it.

The Guiteau Trial.

To the great relief of the country it is announced that the evidence in the Guiteau trial is all in and the prospects are that the great farce, that has occupied the stage at Washington for so many days, will soon close. The counsel for the defense presented their law points to the judge yesterday morning. His honor was to rule upon them this morning, immediately after opening court. Davidge was then to make the opening argument for the prosecution, which will probably occupy the entire day. Scoville will reply for the defense on Monday, and will be followed by Colonel Reed and Guiteau, who will be permitted to address the jury if he desires to do so. Judge Porter will make the closing argument to the jury. Scoville remarked Thursday morning that he did not think the argument would consume more than four days. If this expectation is realized the case will probably go the jury not later than Thursday next.

Installed.

The following newly elected officers of Temple lodge No. 331. I. O. O. F. were duly installed at the regular session of the lodge last night:

N. G.—C. J. Hunt.

What Protection Has Not Done.

From Macon, Ga., Telegraph and Messenger.
Protection has not interfered with the production of our agricultural staples. Our production of cotton has increased from 4,823,770 bales in 1850, to 6,580,329 bales in 1880. Our production of corn has increased from 833,792,740 bushels in 1859 to 1,764,449,435 bushels in 1879. Our production of wheat has increased from 173,104,924 bushels in 1859 to 459,667,043 bushels in 1880. Our production of wool has increased from 90,000,000 pounds in 1861 to 232,500,000 pounds in 1879.

Nor has protection interfered with the exportation of our agricultural staples. In the fiscal year 1859 we exported 1,386,738,676 pounds of cotton, and in the fiscal year 1881 we exported 2,191,078,772 pounds. In the fiscal year 1859 we exported 1,719,908 bushels of corn, and in the fiscal year 1881 we exported 61,908,175 bushels. In the fiscal year 1859 we exported 3,002,016 bushels of wheat, and in the fiscal year 1881 we exported 150,565,479 bushels.

Prescribing for a Child by Telephone.

A few evenings ago a physician of North Adams, Mass., was called by telephone about one o'clock at night. The call came from Briggsville, about two miles away. A child there was suffering with the croup and in a critical condition. The night was dark and stormy, and the doctor found nothing pleasant in the contemplation of the trip which he was asked to make. When preparing to go out into the darkness and rain his mind conceived a bright thought, which was immediately followed by acts. He called the Briggsville house in which the little sufferer lay and requested the parents to bring it to the telephone transmitter. This was done. The child coughed its croupy cough, and the doctor listened intently to every sound which came from his patient. He prescribed a remedy, and one of the members of the family prepared and administered it. The relief was immediate and the recovery rapid. The doctor waited at the telephone until he heard of the favorable results of his prescription, and then sought again the repose of his couch, pronouncing blessings on the inventor of telephones.

Personal.

P. W. HOMBACH, of St. Ignace, was over Thursday.

DESCUM CULVER and wife arrived from Bay City Tuesday.

LOUIS FEXER started on a business trip to Detroit Wednesday morning.

H. L. GREENTHAL returned from his visit to Detroit Wednesday morning.
